Ready2Go Package List

Ready2Go packages are pre-packaged applications where all installation settings have been left as default, they do not require a license to use, and can be installed on Windows XP, Vista or 7 using software deployment technology. Ready2Go packages do not necessarily upgrade previous version(s) due to their generic nature. The only case where a package may initiate an upgrade is where the upgrade is built into the vendor MSI e.g. some Adobe products.

For most packages on the Ready2Go List, the latest version is available for immediate download. All previous versions are also available at Ready2Go prices.

The Ready2Go Package List

A

Adobe Air

Adobe Flash Player ActiveX (Internet Explorer)

Adobe Flash Player ActiveX (Other browsers)
